THE ELEVATED RAILWAY IN NEW YORK—ITS TRIAL ON GREENWICH STREET.

Yesterday the inhabitants of Greenwich street and the storekeepers doing business in that section of the street had something novel and new to look at in the shape of a vehicle or street car running above their heads, on an elevated track, fifteen feet or thereabouts above the level of the sidewalk. This unusual spectacle drew large crowds to the street corners to look at the running of the cars. Every one has heard of the West Side Elevated Railway, which has been in process of construction for some months past, and which is intended, when completed, to run cars from the Battery through Greenwich street, up Ninth avenue to Thirteenth street, and so on up the Bloomingdale road, the terminus to be at or near the Harlem river. Half a mile of this track has been completed from the Battery to Cortlandt street, and yesterday an experimental car was placed upon the track to test the durability and safety of the new railroad and its mode of propulsion. This experimental car is fashioned of iron and wood, something after the style of the present street car, with the exception that a row of reversible chairs are placed in the middle of and running down the cars. When the seats are filled the car will accommodate about forty persons.—The distance from the Battery to Spuyten Duyvel is fourteen miles, and at each half mile a stationary engine will be placed, which will connect with the bridge, built on upright iron posts of the best material, the foundations being sunk on the sidewalk, upon which the single track is laid. These engines will furnish the propelling power by means of an endless wire-rope, about the thickness of the Atlantic cable, which will haul the cars up and down the road, as the case may be. At present, stairs will be erected at the distance of a quarter of a mile, and by this means passengers will be able to ascend to the cars. It is, however, intended by the company to erect stairs at shorter distances from each other as soon as the road has been completed. The rate of speed will average fifteen miles an hour, and it is thus expected that a great saving will accrue to passengers going from one end of the island to the other, being an improvement on the present method of horse-car transit, which now in stormy weather annoys passengers so much in going and coming from their business. The expenses for a single track on the east side of Greenwich street, from the Battery to Thirtieth street, will be about $800,000, it is calculated, and the fare will probably be fixed at about ten cents. But it is also the intention of the company to erect another or double track on the west side of Greenwich street, upon which two cars will run down from the upper terminus. It will take about four months to erect the remaining routes of the track from Cortlandt street to Thirtieth street. 1,100,000 pounds of metal has been used in the erection of the first half mile, now completed, and the total amount of metal necessary to complete the work from the Battery to Thirtieth street will be 6,000,000 pounds. It has been demonstrated that the oscillation of the track, on the passage of a loaded car, is not more than half an inch, while the spring of the metal would safely permit it to be twice as much. Forty passengers in the car, of an average of 140 pounds each, would make the weight 5,600 pounds. The engineers report that the horses drawing the vehicles in the street have become so accustomed to the slight noise of the elevated car in passing to and fro as not to notice it at all at the present juncture. When the road is completed, it will be possible to transmit passengers from the Hudson Railroad depot, in Thirtieth street, to the Battery in twenty minutes, while at present it takes an hour to make the same distance in the horse cars. Three thousand persons an hour can be transported over this road with safety at the rate of twenty miles an hour by the use of a single track and two "turnouts" and a "turn table."

Yesterday the trip was made several times from Cordtlandt street to Rector at a speed of twelve to fifteen miles an hour, to satisfy the doubts of a number of the guests of the company. The mode of transit seemed perfectly safe and satisfactory to every one present, although the slight oscillation of the car was calculated to upset a very nervous man's stomach. The brakeman stands on the platform fronting the car, and yesterday he seemed to have perfect control of his apparatus in every sense. The motion was not as perceptible as it is in travelling in a street car, but the unusual height from the ground of the tract is perhaps the reason why the public should be doubtful of the safety of the new mode of travel. There is another doubt to be solved. Will the ice or snow, in bad weather, cause a car to run off the track? Every one can judge themselves what a nervous state a person is liable to be placed in while passing an embankment on a steam railroad. Well, this eighteen miles of elevated railway will be one continuous line of embankment when completed, although, to be sure, it is more easy to stop these cars, with their peculiar motive power, than a locomotive on a steam railway.

RICH!

"He came from New Jersey"

[By the Fat Contributor.]

There was an amusing scene on board the Louisville mail boat the other day. There was the usual conglomeration of passengers in the cabin just before the boat landed, and mid the general hubbub of conversation a man remarked incidentally, "Now, in New Jersey, where I live"—

Instantly an old man, who had sat moodily and silently pondering by the stove for some time, sprang to his feet and exclaimed—

"Stranger, are you from New Jersey?"

"Yes."

"And willin' to acknowledge it?"

"Yes sir; proud on't."

"Hurra, give us your hand," cried the old man, fairly dancing with excitation. "I'm from New Jersey, too, but never felt like declaring it afore. Shake! I'm an old man. I've traveled long and far. I've been in every city in this here West—steamboated on the Ohio and Mississippi—been to California over the plains and around the horn; took a voyage once to Liverpool, but in all my travels, hang me if this ain't the first time I ever hear'd a man acknowledge that he kum from New Jersey. "Boys," turning to the whole assembly, augmented by railroad runners, hackmen, boot-blacks, newsboys, and apple girls, for the boat had landed, "let's all take a drink to New Jersey, the land of Frelinghyson, Old Hyson and Young Hyson, Commodore Stockton, and Dan Rice. Hip."

LIFE INSURANCE.

The Most Vigorous and the Most Liberal Insurance Company in the Country.

BROOKLYN LIFE INSURANCE COMPANY,

ASSETS OVER

$1,000,000!

CHRISTIAN W. BOUR,.....President.
ABRAM D FOLKERSON.....Vice President.
WILLIAM H. COLE.....Secretary.

DANIEL AYRES, M. D. LL.D., Med. Examiner.

POLICIES ISSUED AS GOOD AS UNITED STATES BONDS.

POLICIES VALUABLE IN LIFE AS AT DEATH!

The BROOKLYN LIFE is the only Company in the country which guaranties a definite surrender-value to every Policy on which two or more annual premiums have been paid; this amount, in dollars and cents, is endorsed on every Policy issued. Should any Policy-holder become unable to pay his premiums, he can thus know the cash worth of the Policy at any time after two annual premiums have been paid.

This certainly is the greatest inducement and most tangible advantage ever accorded to parties insuring their lives.

Among the advantages offered by the BROOKLYN, which thoroughly evince the determination of the officers to make it the MOST LIBERAL Life Insurance Company in the United States, are:

1st TOTAL REMOVAL OF ALL RESTRICTIONS ON TRAVEL AND RESIDENCE. The Assured may travel or reside anywhere they choose, the world over, without extra premium or special permit.

2d. A Loan of one-third of the Premium to the Policy-Holder Annually.

3d. All Policies are non-forfeitable after two full annual premiums have been paid.

4th. Rates as low as are consistent with financial soundness, and less than those of almost all Companies which accommodate their assured with loans.

5th. Dividends annually (after second year) in cash. Dividends are divided on the CONTRIBUTION PLAN—the only equitable manner of dividing the earnings of a Life Insurance Company. The Contribution Plan was first conceived by Mr. D. P. Fackler, now Actuary of this Company and has been adopted by most of the best managed Life Companies in this country.

The BROOKLYN LIFE has paid and now pays to its Policy-holders LARGER DIVIDENDS than ever before paid by a Life Insurance Company!

6th. Promptitude in paying losses.

7th. No charge for policy or stamp.

The success which the "BROOKLYN" has achieved, fully exemplified in its rapid and healthful growth, is a convincing proof of the confidence reposed by the public in its soundness, integrity and liberality.

H. W. ST JOHN, Actuary.

SUMMARY OF BUSINESS FOR 1867

Total Assets, over	$10,000,000
Policies Insured in '67,	15,251
Am'nt Insured, nearly	$45,000,000
Policies Average "	3,000
Receipts for 1867,	5,129,447
Surplus for Dividends,	2,000,000

Dividend Fifty per cent.

Receipts for Interest Nearly Paid Its Losses.

It has $130 Assets for every $100 Liabilities.

Its premium receipts at the present time are nearly HALF A MILLION DOLLARS per month and are rapidly increasing.

The growth of the Ætna has never been equaled by any other Company whatsoever, in Europe or America.

Particular attention is called to the fact that while its business is increasing unprecedentedly, its ratio of expenses is comparatively small.

ECONOMY of management, CARE in the selection of risks, *promptness* in the payment of death claims, and *security* in the investment of its immense Trust Funds, are rigidly adhered to, and have ever characterized this Company.

The ÆTNA issues all the favorite kinds of Policies at the most favorable rates.

The ÆTNA issued last year more Endowment Insurances than any other Company.

The ÆTNA'S ratio of expenses, or cost of new business is less than any other Company whatsoever, and less than *two-thirds* of the average.

The ÆTNA is as liberal in permits to travel, in all parts of the world, as a sound discretion will warrant, and is much more liberal than any other prominent Company.

ANNUAL INCOME over $6,000,000.

The only Company that has the Low Participating Non-forfeitable Term Insurance with privilege of renewal. Ex. of rate at age 30 $14 67, which is nearly 40 per cent. lower than any other leading Company. Also

Non-forfeiting cash rates with dividends on contribution plan and payable at the end of the first year.

Description of Policies.

First—Whole Life Policies,
Second—Endowment Policies, for terms of ten fifteen, twenty, twenty-five, thirty, and thirty-five years.

AGES.

Insurance will be granted at all ages from fifteen to sixty years.

PREMIUMS.

Premiums are payable annually during the continuance of the insurance, or annually during a period of five, ten, fifteen, or twenty years within the insurance term, or by single payment.

DIVIDENDS.

All Whole Life and Endowment Policies, issued at the rates published herewith, will participate in the surplus from the date of issue,

The dividends will be declared and paid annually upon the contribution plan, and may be applied as the assured shall elect, either to reduce future premiums, or to increase the Cash Value of the Policy.

If no election be made the dividends will be added to the Cash Values.

When, by adding the dividends to the Cash Value, the accumulations on any Policy shall have become sufficient to keep the same in force for its *full amount*, without further payments, the assured may, at his option, either continue payment of premiums—and enlarge thereby the annual additions to its Cash Value—or discontinue them; and in either case, when the accumulations shall have become equal to the sum insured, the annual dividends on the Policy will be declared as a per centage of said sum, and paid in cash, and upon surrender of said Policy the sum insured thereby will be paid in *full*, without regard to the time fixed therein for its payment.

The system of applying the dividends is peculiarly advantageous to the assured, securing, at an increased age, not only relief from further payment of premiums, but, at the same time, an annual income until death, unless he shall have previously received full payment of the Policy.

Dividends on paid-up Policies—that is, Policies which require no further payment of premium to continue them in force for the original amount of insurance—will be paid in cash upon demand.

NON-FORFEITURE RULES.

No whole Life or Endowment Policy, on which two or more annual cash premiums have been paid, shall be forfeited by failure to make further payment as stipulated therein, but will continue in force for the full amount which the Cash Value and dividends, then accumulated, will purchase, taken as a single net premium, upon the "Actuaries" rate of mortality and four per cent. interest; and the amount continued in force will generally exceed the aggregate of the payments actually made, extra charges excepted.

CAPITAL STOCK, $228,500.
Nett Assets of the Company, July 1st, 1868, $330,942.06.

Insures lives, and promptly adjusts and pays losses. Its principal business is with Southern States, and to them it appeals for patronage. It has ample means to fully protect Policy holders and pay all losses.

The "Southern" combines the advantage of both note and cash system, stock and mutual—such as choose to pay cash may do so and secure a non-forfeitable policy and all the advantages of a Cash Company. The privilege of a permanent loan for one-third is granted to all who desire it.

It makes investments at home in good and reliable securities, thereby tending to make more money in our midst, and to aid in developing the resources of our section, and to stop the annual drain of over SIX Million dollars, which are being sent North for Life Insurance.

Its profits are equitably distributed among Policy holders and stockholders.

In its organization are presented men of experience in Life Insurance and their aim will be to make the "Southern Life" the exponent of the business, enterprise and progress of the present day.

NEW METHOD OF WASHING CLOTHES WITHOUT LABOR

THE AUTOMATIC

CLOTHES WASHER AND BOILER.

THIS BOILER IS MOST EFFECTUAL, reliable and universally recommended. It can be used on any Stove or Range, to any boiler, and the LOW PRICE of the article places it within the reach of every family.

This Boiler operates upon purely philosophical principles, is self-acting, and dispenses with labor and the wear of the clothes.

The hot suds and steam, by the action of heat, are driven up through a tube, poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing all articles from the finest lawn to the bed-blanket. For Flannels it is invaluable, as it does not full them as in the old process of rubbing and pressing.

The time required for cleansing a boiler full of clothes is twenty to thirty minutes, and nearly three hundred gallons of boiling suds are forced through the fabric thoroughly loosening and eradicating the dirt WITHOUT LABOR or friction.—A thorough rinsing finishes the process.

Washing day will no longer be a terror and dread to housekeepers. The cost of the Boiler will soon be returned in the SAVING OF TIME AND LABOR, and the great saving in the wear of clothes.

The great value of this invention appears so clear, and appeals so directly to common sense, that we have deemed it unnecessary to accompany its introduction with numerous letters of approval, &c.

No invention has met with such ready sale and given such satisfaction. Call at LOUGEE & BROTHERS', and see its wonderful operations.—We have the exclusive right to sell and manufacture in the State.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

THURSDAY, FEBRUARY 11, 1869.

DR. MUDD, PARDONED—MRS. SURRATT, &c.

Our telegraphic news yesterday, announced the pardon of Dr. Mudd, who has been for long and dreary months, suffering confinement, at hard labor, having been convicted of complicity in the Lincoln murder. The body of Mrs. Surratt, who was hung by military authority, having been convicted as an accomplice in the plot to murder Mr. Lincoln, has been graciously handed over to her friends. Gen. Butler pronounced the hanging of Mrs. Surratt, *murder*—the evidence convicted her of nothing; yet, the thirst for blood, and the excitement attending the murder of Mr. Lincoln, asked for her sacrifice, and she suffered the penalty due only to the perpetrator of the murder. Time will roll on; but, one by one, as the brief past proves, the miserable wretches who "planned and plotted" for the life of Mrs. Surratt, will, (as some of them already have,) come to bitter grief.

It was a gross insult to the nation—it was worse than barbarous—the killing of President Lincoln! It was a grevious outrage, deserving swift punishment. But, in the heat of passion, when reason and justice had fled, was it not cruel—was it not a disgusting shame—an outrage on decency, to hang an innocent woman to gratify and satisfy a turbulent mob! This act of cruel injustice will ever remain a black stain on the pages of the nations history.

But, the President, at this late hour, when his Presidential Sun is just to be seen, as it passes beneath the political horizon, graciously yields, and delivers the dust of this woman to her distressed and ruined family! We can see no mercy in this last act of the drama—if anything, it adds to the horrors of the tragedy—it is an admittance, that she was "burried alive"—murdered, in hot blood, and is but a confession of the wrong which has been perpetrated. It were better, if her ashes had been kept a prisoner, under ground, by the government.

We can see nothing to admire in these latter day acts of grace by the President.—It it is right now, to pardon Dr. Mudd—if it is right now, to give up the dead body of Mrs. Surratt—if it was right to pardon Capt. Toler, after a twelve month's incarceration—why was it not right to do these acts of clemency at once, and at the time? A man *guilty* of crime, unless extenuating circumstances can be shown, is not a subject of Executive clemency.

But, we are not complaining of the release of Dr. Mudd—we rejoice at his liberation, and we trust that every political prisoner will meet with Executive pardon. We do censure President Johnson, however, for not doing long since, what he finds it his duty to do now. We would apologise for his tardiness of action, did we not believe that his attention has been called in that direction long since.

"WHAT WENT YE OUT FOR TO SEE!"

The free-talking Washington correspondent of that intelligent Republican sheet the Cincinnati *Commercial* has been contemplating the Federal capital and other matters through a new pair of lens. They present new views, which may be to some "foolishness" and a "stumbling block," but still they will probably make an impression.—We copy the following paragraphs from the melancholy picture:

"I thought, as I gazed through the hazy atmosphere over the Potomac at the beloved capital of my country, that, after all, the victory we had gained was not such a comfortable victory. In the conflict of the two civilizations, as we call them, I am not so certain we have the better. Such little minds as Seward and Sumner find that of a conquered people a civilization based on slavery. What shallow stuff. It was a civilization based on home. The love of family, the affection for the household, the pride of State, which meant the locality, when these attributes were found, are the characteristics of Southern civilization, and existed independent of slavery. Our civilization is the reverse of this. It is the civilization of New England that has no true sense of home, no love of the household, no affection for a locality. We have the barbaric pride of display. We emigrate and build up to emigrate again. Our idea of government means empire and force. There is no repose, no quiet, no heartfelt affection for the peaceful home and the sacred household gods that create the heroic. We have telegraphs, railroads, huge factories, great cities, and a world wide commerce, but we have no real happiness. We are Arabs in boots, and our masters are theirs.

The late lamented Lincoln, in his quaint dedication address of the Gettysburg Cemetery, said the soldiers had died a heroic death that we might have 'a Government of the people, by the people, and for the people.' As the flag flattered above me, and the winds sang mournfully among the pines, and the long shadows stole out over the waters, I looked at the dome of our capitol and thought how 'the Government of the people, by the people, and for the people,' was directing its vast powers so as to crush the poor and strengthen the wealthy; how harlots intrigued and thieves reigned; how under that dome there swarmed as under a hive, thousands on thousands of greedy, selfish, and unprincipled men; and I wended my way back, far from happy over the famous victory we boast of."

ROBERTS MURDER.—*St. Louis*, Feb. 7.—Yesterday a man named Hoefer, living on the outside of Hannibal, Missouri, murdered his daughter, a little girl, ten years old.—He strangled her with a strap, cut her body in two, tore her heart out, cut it open, and swallowed the blood. He was arrested, and when asked why he committed the deed, replied that Christ was killed, and it was no worse for his child to die than Christ, and that he offered her as a sacrifice to Christ. It is said that the man is insane on religion.

On motion of Mr. Renfrow, the rules were suspended, and the bill authorizing the county Commissioners of Halifax—to levy a special tax, was taken up and passed its third reading by a vote of yeas 75, nays none.

Mr. Pou moved to suspend the rules and take up the Senate bill repealing the Penitentiary act.

Mr. Ashworth said he was receiving letters every day about this matter. The people were becoming clamorous about it. He hoped the motion would prevail.

The motion to suspend the rules, was then put to a vote and adopted.

The question then recurring upon Mr. Downing's motion, made (when the bill was last discussed,) to indefinitely postpone the bill, it was put to a vote and lost.

The bill then passed its several readings and was ordered to be enrolled.

Messrs. Durham, Sinclair, Williams of Harnett and Proctor were allowed to record their names as voting against the bill in relation to the practice of law.

Mr. Barnett gave notice that he would introduce a bill in relation to fences, and for the protection of crops, in certain townships in the county of Person.

G. W. Price, colored, gave notice that he would introduce shortly a bill to incorporate the Star of Hope Lodge No. 6, Independent order of Good Templars of the City of Wilmington.

On motion of Smith, of Alleghany, the rules were suspended and the resolution in relation to the State lines was taken up and passed its several readings.

On motion of Mr. Jarvis, the rules were suspended, and the bill changing the time of holding Courts in Hyde and Martin counties, was taken up and passed its several readings.

On motion of Mr. Estes, the rules were suspended and the Revenue bill was taken up, when,

The question recurred upon the motion to reconsider the vote by which Mr. Welch's amendment, making the *ad valorem* tax upon property one-fourth of one per cent instead of two-fifths as the bill requires, was adopted.

Mr. Parker supported the motion to reconsider, as he did not think one-fourth of one per cent. would raise the requisite amount of revenue.

Mr. Welch advocated his amendment.—He said that the Constitution expressly restricted taxation to 66⅔ cents upon the hundred dollars worth of property, and he did not see how gentlemen could shut their eyes to that fact.

Messrs. Pou and Vest argued in opposition to the amendment.

Mr. Estes took the floor and spoke for some time, in opposition to the amendment.

Mr. Ingram also opposed the amendment.

Mr. Malone said:

The Chairman of the Finance Committee over estimates the amount of revenue necessary to be raised. He says about $1,300,000 must be raised. I deny its correctness. The Governor in his message, says that the amount is $1,069,994.79 to be raised for the present fiscal year.

Now why require the people to raise $200,000 or $300,000 more than the Public Treasurer estimates as necessary.

The amendment for which I contend is twenty-five cents on the $100 worth of taxable property. Now look again at the message of the Governor. He says that the estimated value of the property of the State, subject to taxation is $950,000,000. Now one fourth of one per cent will raise $625,000.

And the Chairman of the Finance Committee admits that about $400,000 may be raised on privileges, franchises and incomes. This then meets the demands of the emergency. If twenty-five cents on the one hundred dollars is amply sufficient, why make it forty cents on the one hundred dollars, which is 400 per cent on the State tax last year. We have other resources of revenue. Where is all the interest the State has in her works of internal improvements, being about $13,000,000. Gentlemen come here with great zeal for country and especially for party. If they would manifest that zeal in an effort to husband the resources of the State, it would be more commendable.

The Governor asks for legislation requiring the prompt payment of the interest due from these corporations, yet not a single effort is made—but *all, all* must be raised by direct taxation, by which the impoverished people, are to groan under these heavy burdens. And I suspect also that the object is to supply a deficit in the school fund, by which a stupendous system of schools and colleges is to be built. If this is so I deprecate the same. The poll tax is already (or 75 per cent of the same) appropriated to this purpose. The people must not be required to pay more at the present time. I hope the amendment will prevail.

After some further debate, the motion to reconsider was put to a vote, and resulted in the following ballot:

YEAS.—Messrs. Ames, Ashworth, Banner, Barnett, Blair, Carson, Carey, colored, Cawthorn, colored, Crawford, colored, Dixon, Ellington, Estes, Forkner, colored, Foster, Franklin, French, Gahagan, Gilbert, Graham, Gunter, Harris, of Wake, colored Hodgin, Hudgings, colored, Ingram, Justus, of Henderson, Justice, of Rutherford, Kelly, of Davie, Long, of Richmond, Mayo, colored, Moring, Morrill, Morris, colored, Parker, Pearson, Peck, Pou, Price, Proctor, Renfrow, Robbins, Reynolds, colored, Seymour, Sinclair, Snipes, Stilley, Sweat, colored, Vestal, Vest, Waldrop, White, Whitley, Williamson, colored, Wilson, and Wiswall—54.

By permission, Mr. Seymour, from the Committee on the Judiciary, reported upon various bills, which were placed upon the calendar.

On motion of Mr. Seymour, the rules were suspended, and the bill just reported, to amend title 6, section 68, of the Code of Civil Procedure, was taken up and passed its several readings.

The discussion upon the revenue bill was resumed, and the question recurred upon Mr. Welch's amendment. Upon its adoption, the yeas and nays being called, resulted in the following ballot:

YEAS.—Messrs. Allison, Armstrong, Boddie, Clayton, of Transylvania, Davidson, Durham, Farrow, Ferebee, Gibson, Grier, Hawkins, Hendricks, Hicks, High, Hinnant, Hodnett, Jarvis, Justus, of Henderson, Long, of Chatham, Malone, Moore, Nicholson, Painter, Robinson, Siegrist, Smith, of Alleghany, Smith, of Wayne, Stanton, Thompson, Waldrop, Welch and Williams, of Harnett.

The remainder of the time was spent in discussing various amendments to other sections of the bill.

Pending the debate upon sec. 29, schedule B, in reference to the tax upon lawyers and physicians, the House adjourned until 10 o'clock, to morrow morning.

NOTE—Mr. Gilbert was reported in the proceedings of yesterday as having presented a petition of the citizens of McDowell in reference to a new county. It should have been a petition to prohibit the sale of liquor at Marion.

The bill changing the time of holding courts in Hyde and Martin counties, provides that the Court in Hyde shall be held on the 2d Monday after the 3d Monday in February, and in Martin on the 4th Monday after the 3d Monday in February.

FIENDISH ATTEMPT TO DESTROY LIFE.

LANCASTER, PENN., February 6.—Several attempts have been made within a short time to fire the Children's Home, at this place, containing nearly two hundred inmates. Last evening another attempt was made by placing old clothing in the bung-hole of a barrel of oil in the cellar, and igniting the end outside. The attempt was fortunately discovered and the fire extinguished. Suspicion fell upon a girl fourteen years of age, an inmate, named Ellen Doyle, who at first denied all knowledge of the matter, but this morning confessed that she had not only made the attempt last night, but also a similar one within the last ten days. She was committed for trial.

NORFOLK AND GREAT WESTERN RAILROAD.—The work of surveying this projected road is being prosecuted as fast as possible, and we see that in some of the counties along the line preparations are being made to raise funds for the successful prosecution of the work. In the county of Halifax the January term of court ordered a levy of $6,000 to be expended in meeting the preleminary expenses, such as surveying, &c. This county voted a subscription of $500,000 to the capital stock of the company, which sum will be repaid when the line shall be completed, and the product of that fertile region poured, without breaking bulk, into the lap of Norfolk, to be shipped to the markets of England and of the world.—*Virginian.*

MAGIC COMB DYE.—A gentleman who has been using this patent humbug concern (manufactured by the Magic Comb Company at Springfield, Mass.,) for dying his beard, informs us that the vile stuff nearly ruined his face. He applied it according to the manufactures' directions and found that instead of accomplishing what he desired it burnt his face as caustic would have done. Add to this the turning of the beard all sorts of colors, and the reader has the full effect of this wounderful "magic comb." Such transformations as it produces are real but undesirable. We caution the public against the use of such a mischievous humbug.—*Wil. Journal.*

PARDONED.—*Louisville*, Feb. 5.—The President has pardoned Carlo Latrygs and Francis Martinetti, who were sentenced in 1866 to serve fifteen years in the penitentiary at Frankfort, for counterfitting United States currency.

INTERNAL REVENUE DECISION.

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, January 21, 1869.

SIR: I am in receipt of yours of the 4th inst., in reference to the gauging and stamping of spirits, and reply that, under section 25, of the act of July 20, 1868, any cask or package containing more than five gallons of spirits, filled for shipment, sale or delivery on the premises of a rectifier, compounder or wholesale liquor dealer, must be inspected and guaged, and the proper stamp affixed thereto; but that any package containing less than the quantity above specifies does not require stamping or guaging.

The limitation as to capacity or package is contained in section 57 of the act, in connection with the provision for forfeiture of packages found without the marks and stamps required therefor.

Any person who fills and offers for sale packages of spirits containing more than five gallons, will be deemed a wholesale liquor dealer to the extent of such sale, and must therefore fully comply with the provisions of said section, even though such sale is merely occasional, and not characteristic of his general business.

Very respectfully,
[Signed] E. A. ROLLINS, Com.
GEO. Q. ERSKINE, Esq., Collector First District, Milwaukee.

HOW LONG COTTON WILL KEEP.—Loitering by chance in the office of a well-known firm long in the cotton trade, we were perfectly astonished, both as to the length of time for which our staple may be preserved and by the original financial policy pursued by our farmers. A grandson of a life-long farmer was advised orally, of the consignment of a certain number of bales, on account of Grandpere. The question was asked: 'Is it this year's crop, or when was it grown?' "No! it is in good order, and was grown in 1839." The ancient date referred to startled us and led to the inquiry why has it been held so long? The reply was, "Well, I don't know, but cotton will keep if sheltered, and it is always cash when you want it." An appealing look to the venerable senior of the firm called forth, "That is so. That is his policy. I have known him longer than the period mentioned, and have sold his cotton every year. I know that he keeps cotton as cash; and I sold it only a year since grown in the year mentioned." This was not only novel as a financial policy, but provokes the inquiry how long may cotton be preserved?—*Augusta Chronicle and Sentinel.*

His Excellency Governor Holden has remitted the costs incurred by the following parties for misdemeanors alleged to have been committed under military orders during the rebellion, to-wit: Patrick Applewhite, Haywood White, Harvey Peacock, David Peacock, Wm. Hall, Enoch Applewhite, Baalam Hall and Britt Barnes.

All of the above parties are residents of the county of Wilson.—*Raleigh Standard.*

The above is as near the truth as the *Standard* generally gets, when referring to matters relating to this county. The facts in the case are: The above named negroes, in the fall of last year, whipped unmercifully a man of their own color, *because he voted the Democratic ticket.* They were arrested and brought up before the Superior Court, at its last session for this county, for trial. They admitted their guilt, and were sentenced to different periods of labor in the chain-gang as a punishment therefor. Now, if it was right for the Governor to pardon these his special friends, who were unwilling that a black man should vote against him, why did not the *Standard* tell the truth about it?—*Wilson Plaindealer.*

NATIONAL LIFE INSURANCE COMPANY,
OF THE
UNITED STATES OF AMERICA,
WASHINGTON, D. C.
Chartered by Special Act of Congress, Approved July 25th, 1868.
CASH CAPITAL,
$1,000,000,
PAID IN FULL.
BRANCH OFFICE:
FIRST NATIONAL BANK BUILDING,
PHILADELPHIA,
where the general business of the Company is transacted, and to which all general correspondence should be addressed.
OFFICERS.
CLARENCE H CLARK, President.
JAY COOK, Chairman Finance and Executive Committee.
HENRY D. COOKE, Vice President.
EMERSON W. FEET, Secretary and Actuary.

This Company, National in its character, offers, by reason of its large capital, low rates of Premium, and New Tables, the most desirable means of insuring life yet presented to the public.
The rates of premium being largely reduced, are made as favorable to the insurers as those of the best Mutual Companies, and avoid all the complications and uncertainties of Notes, Dividends and the misunderstandings which the latter are so apt to cause the Policy-holder.
Several new and attractive tables are now presented, which need only to be understood to prove acceptable to the public, such as the INCOME-PRODUCING POLICY and RETURN PREMIUM POLICY. In the former, the policy-holder not only secures a life insurance, payable at death, but will receive, if living, after a period of a few years, an ANNUAL INCOME equal to ten per cent. (10 per cent) of the par of his policy. In the latter the Company agrees to return to the assured the total amount of money he has paid in, in addition to the amount of his policy.
The organization of this Company on the LOW RATE, CASH PLAN, with new features and unequaled security, has evoked the most remarkable opposition from older and rival Companies. By means, fair and unfair, they have sought to injure the new system, and have attacked it with a degree of virulence unknown in the history of Life Insurance.
Not satisfied with the immense sums of money paid Insurance and other journals, to try and check the rapid progress of the National, an unsuccessful motion was made in Congress to repeal its Charter, all of which but accelerated its speed, for since then the largest policies issued has been to members of Congress, whose attention has been thus attracted to its unsurpassed advantages. In the face of this opposition, the work of the Company has gone steadily forward, and it is with no little satisfaction that the GENERAL AGENTS are able to state that the business to date is far in advance of anything hitherto accomplished.
In Six Months 3,000 Policies have Been Issued.

Importance of Life Insurance.
Read another forcible illustration of how the CONNECTICUT MUTUAL LIFE INSURANCE COMPANY pays its losses:—
"Received, at Raleigh, N. C., Jan 29th, 1869 of S. D. Wait, General Agent of the Conn Mutual Life Ins Co., two thousand five hundred and forty-five dollars, in full payment of Policy No. 84,681, and dividend on the life of my late husband, ——, and I hereby surrender all my right, title and interest in the same to said Company.
(Signed) ——— ———, of Newbern, N. C"
We refrain from publishing the names of the parties, because we do not think it advisable to publish one's private business, but will state although the party had not been insured quite five months, yet received a 50 per cent. dividend on $45 on the premium paid. The dividends of this Company have been larger than those of any other, averaging over 50 per cent. annually, from the beginning and the present dividend (Feb 1st, 1869,) exceeds the average. On this *twentieth* annual dividend the Directors have, besides declaring a 45 per cent. dividend upon the premium paid, declared a per centage dividend on the surplus reserve arising from interest, which increases the policy holder's dividend annually, and on some policies pays over 70 per cent. this year. They have also adopted a reduced *all-cash premium table* with immediate annual dividends.
This company is purely mutual; there are no *Stockholders* to absorb its earnings. It offers abundant security in a large accumulated fund of over TWENTY-THREE MILLIONS DOLLARS, derived alone from its business, and has $154 assets, securely invested for every $100 of its liabilities.—Its plans of business comprise all the desirable forms of insurance. To the People of the Southern States.
NEW YORK, Nov. 3, 1868.
When the pure medicinal restorative, now so widely known as Wolfe's Schiedam Schnapps, was introduced into the world under the endorsement of four thousand leading members of the medical profession some 20 years ago, its proprietor was well aware that it could not wholly escape the penalty attached to all new and useful preparations. He, therefore, endeavored to invest it with strongest possible safeguard against counterfeiters, and to render all attempts to pirate it difficult and dangerous. It was submitted to distinguished chemists for analysis, and pronounced by them the purest spirit ever manufactured. Its purity and properties having been thus ascertained, samples of the article were forwarded to ten thousand physicians, including all the leading practitioners in the United States, for purposes of experiment. A circular, requesting a trial of the preparation and a report of the result, accompanied each specimen. Four thousand of the most eminent medical men in the Union promptly responded. Their opinions of the article were unanimously favorable. Such a preparation, they said, had long been wanted by the profession, as no reliance could be placed on the ordinary liquors of commerce, all of which were more or less adulterated, and therefore unfit for medical purposes. The peculiar excellence and strength of the oil of juniper, which formed one of the principal ingredients of the Schnapps, together with an unalloyed character of the alcoholic element, give it, in the estimation of the faculty, a marked superiority over every other diffusive stimulant as a diuretic, tonic and restorative.
These satisfactory credentials from professional men of the highest rank were published in a condensed form, and enclosed with each bottle of the Schnapps, as one of the guarantees of the genuineness. Other precautions against fraud were also adopted; a patent was obtained for the article, the label was copyrighted, a *fac simile* of the proprietor's autograph signature was attached to each label and cover, his name and that of the preparation were embossed on the bottles, and the corks were sealed with his private seal. No article had ever been sold in this country under the name of Schnapps prior to the introduction of Wolfe's Schiedam schnapps, in 1851; and the label was deposited, as his trade mark, in the United States District Court for the Southern District of New York during that year.
It might be supposed by persons unacquainted with the daring character of the pirates who prey upon the reputation of honorable merchants by vending deleterious trash under their name, that the protections so carefully thrown around these Schnapps would have precluded the introductions and sale of counterfeits. They seem, however, only to have stimulated the rapacity of impostors. The trade mark of the proprietor has been stolen; the indorsement which his Schiedam Aromatic schnapps alone received from the medical profession has been claimed by manufacturing humbugs; his labels and bottles have been imitated, his advertisements paraphrased, his circulars copied, and worse than all, dishonorable retailers, after disposing of the genuine contents of his bottles, have filled them up with common gin, the most deleterious of all liquors, and thus made his name and brand a cover for poison.
The public, the medical profession and the sick for whom the Schiedam Aromatic Schnapps is prescribed as a remedy, are equally interested with the proprietor in the detection and suppression of these nefarious practices. The genuine article, manufactured at the establishment of the undersigned in schiedam, Holland, is distilled from a barley of the finest quality, and flavored with an essential extract of the berry of the Italian juniper, of unequaled purity. By a process unknown in the preparation of any other liquor, it is freed from every acrimonious and corrosive element.
Compliments have been received from the leading physicians and families in the *Southern States* of the sale of cheap imitations of the Schiedam Aromatic Schnapps in those markets; and travellers, who are in the habit of using it as an antidote to the baneful influence of unwholesome river water, testify that cheap gin, put up in Schiedam bottles, is frequently palmed off upon the unwary. The agents of the undersigned have been requested to institute inquiries on the subject, and to forward to him the names of such parties as they may ascertain to be engaged in the atrocious system of deception. In conclusion, the undersigned would say that he has produced, from under the hands of the most distinguished men of science in America, proofs unanswerable of the purity and medicinal excellence of the Schiedam Aromatic Schnapps; that he has expended many thousand dollars in surrounding it with guarantees and safeguards, which he designed should protect the public and himself against fraudulent imitations; that he has shown it to be the only liquor in the world that can be uniformly depended upon as unadulterated; that he has challenged investigation, analysis, comparison, and experiment in all its forms; and from every ordeal the preparation which bears his name, seal and trademark, has come off triumphant. He therefore feels it a duty he owes to his fellow-citizens generally, to the medical profession and the sick, to denounce and to expose the charlatans who counterfeit these evidences of identity and he calls upon the press and the public to aid him in his efforts to remedy so great an evil.
The following letters and certificates from the leading physicians and chemists of this city will prove to the reader that all goods sold by the undersigned are all they are represented to be.
UDOLPHO WOLFE.

I feel bound to say, that I regard your Schnapps as being in every respect pre-eminently pure, and deserving of medical patronage. At all events, it is the purest possible article of Holland Gin, heretofore unobtainable, and, as such, may be safely prescribed by physicians.

UDOLPHO WOLFE, Esq., *Present:*
DEAR SIR:—I have made a chemical examination of a sample of your Schiedam Schnapps, with the intent of determining if any foreign or injurious substance had been added to the simple distilled spirits.
The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixture, I have been unable to discover any trace of the deleterious substances which are employed in the adulteration of liquors. I would not hesitate to use myself or to recommend to others, for medical purposes, the Schiedam Schnapps as an excellent and unobjectionable variety of Gin.
Very respectfully yours,
(Signed,) CHAS. A. SEELY, Chemist.

DEAR SIR:—I have submitted to chemical analysis two bottles of "Schiedam Schnapps," which I took from a fresh package in your bonded warehouse, and find, as before, that the spirituous liquor is free from injurious ingredients or falsification: that it has the marks of being aged and not recently prepared by mechanical admixture of alcohol and aromatics.
Respectfully,
FRED. F. MAYER, Chemist.

UDOLPHO WOLFE, Esq.:—
DEAR SIR:—The want of pure Wines and Liquors for medical purposes has been long felt by the profession, and thousands of lives have been sacrificed by the use of adulterated articles. Delirium tremens, and other diseases of the brain and nerves, so rife in this country, are very rare in Europe, owing, in a great degree, to the difference in the purity of the spirits sold.
We have tested the several articles imported and sold by you, including your Gin,

THE TABLEAUX, TUESDAY NIGHT.—This exhibition of our young folks, was a grand success. Every piece was represented in true theatrical style, and Tucker Hall was brilliant with the beautiful and good of our City. Every seat, and every available spot in the spacious and splendid Hall was occupied, and the multitude, seemed highly delighted with the evening's entertainment.

The band of music, furnished by Gen'l. Miles, added much to the enjoyment.

Last evening, in response to a universal request, the scenes were re-enacted before a full audience, with additions.

The closing scene—*Finished Business*,—was truly impressive. On the stage, the Oak City Council was represented, in full Regalia—the Young Men's Christian Association was also represented, fronting the audience, forming a semi-circle. The funds collected by the entertainment were paid over to the Treasurer, amounting, we understand, to between three and four hundred dollars. All who patronised the Tableaux, felt that they had done well in thus contributing to the charitable object of administering to the destitute of the City; and the praise of the young ladies, who have engineered this matter through to a success, aided by the young men, is upon the lips of every one.

OUR market, Thursday morning, was well supplied with country produce. We have seldom seen as many carts present.—Chickens, potatoes, butter, eggs, rabbits and fresh pork, beside many other articles, brought good prices.

We would suggest to our City Council, to prohibit hucksters from buying up articles for speculation, until say, after 10 o'clock. A hint is sufficient. All who attend market, know that our citizens are compelled to "pay tribute," unless they are so fortunate as to be in advance of these speculators.

NATIONAL LIFE INSURANCE CO.—We call attention to-day, to the advertisement of the National Life Insurance Company.—This Company has secured the services of our friend, P. F. Pescud, Esq., as its local agent for the city—the selection is a good one, as Mr Pescud has identified himself with the schemes of insurance, and is, perhaps, as well posted in the business as any man, which, coupled with his untiring energy and preseverance, he wins a decided success. The National is a new, but popular Company, and we learn from Mr. P. that he has issued in this Company alone, as many as ten policies a day. Our people are fully awake to the importance and advantages of life insurance, and but few heads of families will neglect this mode of providing for their wives and little ones, in the event of death.

N. C. MUTUAL HOME INS. CO.—We are requested to state that the hour for the First Annual Meeting of the Stockholders of this Company, to day, will be 4 o'clock, P. M.

MASS MEETING IN LEXINGTON,—RELIEF.

A large meeting of the citizens of Davidson County, was held in the Court House, in Lexington, on the 6th, day of February.

On motion of Col. W. F. Henderson, Henderson Adams Esq, Auditor of the State, was unanimously elected Chairman, who on taking the Chair delivered a forcible and well directed speech.

On motion Levi E. Johnson Esq., was elected Secretary.

An elaborate speech of an hours length, was delivered by David Moffit, Esq He was followed by M. H. Pinnix in a speech of some three quarters of an hour. The meeting was then addressed by Col. W. F. Henderson and others. All of the speeches were well received by the large and appreciative audience. They showed conclusively that it would be to the interest alike of the creditor and debtor as well as of the whole State, to compromise, and if need be, to force, by legislative enactment, a speedy settlement of all old claims, at about 25 per cent of the individual indebtedness; that if such a compromise was not effected, the people would be driven into bankruptcy, the creditor would lose all, and the debtor be ruined.

The following resolutions were then introduced and unanimously adopted.

WHEREAS, before the late war, a custom prevailed in this State, among the people, by which business and trade was chiefly carried on, commonly known as the credit system, and by means of which the people became largely involved in debt; and

WHEREAS, the basis upon which this custom prevailed, or the property which stood as a basis and pledge, or security, for the extension of this system, have been swept away by the ravages of civil war, whereby the people, almost insolvent, are rendered unable to pay to the full amount the debts thus so largely contracted; and

WHEREAS, it is absolutely essential that these old debts, which are now paralyzing the energies of the people, should be speedily settled, in order that the people might turn their attention to industrial and economical pursuits, and thereby become more able to pay taxes to the government, to restore confidence among themselves, and to re inaugurate prosperity throughout the whole land; therefore

Resolved, by the people of Davidson County, in mass meeting assembled, that it is the deliberate opinion of this meeting, that all debts contracted before the 1st. day of May, 1865, should be speedily settled on the basis of the debtor paying or securing to the creditors about 25 per cent. of the indebtedness; that the interest alike of the creditor and debtor, as well as of the whole State, would be promoted thereby; that the creditor would realize more money by such a compromise, than by driving the debtor into bankruptcy, by attempting to collect the whole amount.

Resolved, That we hereby instruct our members of the General Assembly from this county to vote for, and to use their influence to carry, all such measures as tend to force the settlement of old debts upon the plan above described.

Resolved, That we call upon the people of the State to call primary and county meetings, to give expression to their views on this subject and assist us in appealing to the Legislature to take prompt and effective steps to carry out the object sought by these resolutions.

Resolved, That copies of these resolutions be transmitted by the Secretary to the President of the Senate, and Speaker of the House of Representatives of North Carolina, with a request that they have them read before their respective bodies, and that copies be furnished the Raleigh *Standard* and *Sentinel* for publication, and that all the papers in the State be requested to copy them.

On motion, the meeting then adjourned.

HENDERSON ADAMS, *Ch'm.*

LEVI E. JOHNSON, *Sec.*

The Conservative Convention, in nominating Colonel Thomas F. Toon as their candidate for Senator in the Fourteenth Senatorial District, composed of the counties of Bladen and Columbus, has done itself credit, and presented a name of which the District has cause to be proud. In every relation of life Col. Toon has acquitted himself with honor. A gallant soldier, a worthy citizen, and a gentleman of ability and probity, he stands before the people of the District not only without reproach, but with honor and credit. Of incorruptible integrity, his services are particularly needed in this day of political corruption and official venality.

In this contest Colonel Toon has for an opponent one who is not known in the political history of this section, and the people of their District must soon choose between them. Even without moral or political disqualifications, Andrew J. Jones comes under the ban of the Fourteenth Article of the Federal Constitution, for which offence Col. Purdie was deprived of his seat. Mr. Jones was a Senator of North Carolina before the war, and during the war was an agent of the Confederate Government to purchase horses and mules for war purposes. He cannot, therefore, as we are informed he alleges, take the "iron-clad" oath, unless he forswears himself, as others in the South have done for sums almost as small as his *per diem* would be for the remainder of the session, if he should be elected.—*Wil. RELATIVE TAXATION NORTH AND SOUTH.

In our last, we assumed that the amount of money actually collected by the Federal government, from the whole country, was three hundred and ten millions. The *per capita* levy upon the whole population is, therefore, $8.38 and a fraction. Taking it to be thirty-seven million (26 North and West, and 11 South,) it follows that the sum levied upon the North and West, (supposing the levy to be exactly fair,) would be $218,480,000, and upon the South $91,180,000, with a small fraction not affecting the present inquiry. But the Congressional document referred to, makes the sum actually collected from the South, from Internal Revenue to be under 33 millions.—Assuming the collection from the duties levied at the Custom Houses, upon the Southern States, to fall off in the same proportion as those from Internal Revenue, (which we do not believe and assume to avoid dispute,) and correcting the calculations made in our last, we find that the sum actually levied upon the South rather more than $63 940,000 showing a deficiency of $27,240,000, which, in our last, we, perhaps, erroneously stated at $37 880,000. It follows that the actual levy upon the North and West is $246,720,000. In that article we stated that the reduced freights on the cotton crop were probably $125,500,000, which is clearly a loss to the industry of the North, more or less affecting its whole population, and a change upon it to that amount, $12,500,000.

We have now to add that we assume the consumption of raw cotton at the North and West, to average four pounds. We do this upon our intimate knowledge of the negro consumption before 1860, reducing it one-third, in consequence of the greater amount of wool, which may be used at the North and West, and we estimate the enhanced price of the article to be 12½ cents a pound, equal to a charge on the North and West of $13,000,000. The total collected in money, losses, and enhanced prices is $272,220 000, an average *per capita* of $10 4 100. We ascertained and stated above, that the money actually collected by the Federal government from the South was $63 940,000 The South lost nothing charged upon their crops as freight—on the contrary, as the cotton crop of this year (1868) is supposed to produce as much in money, as that of 1860, and as the freight on the reduced quantity is about one-half, they actually gain the reduction, viz: $12,500,000. As the North and West make no cotton, and as every rise in price whether caused by a deficient supply, or a tax levied on home production, either for revenue or protection, is a bounty to the producer, and a burden on the consumer, it follows that the enhanced price of cotton used at the North and West, is a gain to the South of $13,000,000. Of necessity then these two sums are to be deducted from the burden on the South and reduce it to $38,440,000 or $3 49 *per capita*. Compared with that upon the North as one to nearly three.

There is, we see, after a strict, and we intended a fair examination, but one omission in the process by which we arrive at this result, viz: The relative burdens imposed upon the different parts of our country by those duties which are known as protective. This is not a designed omission, it is caused simply by the want of materials with which to make the inquiry.

Admitting (not for the sake of argument, but to avoid it) that the relative proportions of those duties, being founded solely on consumption, are now equal, which we do not believe, we took the case of cotton alone; we ignored the crops of sugar and tobacco, we said nothing about the loss of freights upon these crops, neither of their enhanced price, permitting them to compensate for any possible over proportion of the protective duties paid by the South. But we see that the sugar crop of 1860 was 45 000 hhds against 75 000 in 1867, and we are willing to leave the question whether the enhanced price, added to the loss of freights &c., would not make the balance of the annual burdens of those protective duties heavy against the North and West.

Some of our readers will exclaim: "Impossible! the annual burden upon the North and West being stated at 10 04 dollars against 3.49 dollars in the South, proves too much—there must be some mistake!" In reply we say, that our object has been to ascertain facts as they exist. We have not in this article stated the causes of their existence. We admitted that we were not expert at such examinations. Our main object being to ask everybody to search and either disprove the truth of our deductions, or admit them.

But we will state one fact to our readers, which may not have occurred to them. In 1860 the crops of the South are estimated at 300 millions. In 1868, although grievously fallen off in quantity, their marketable value is supposed to have been maintained. The labor of production in farming or planting, is supposed to be one third of the gross produce.

In 1860, with inconsiderable deduction, the hundred millions worth of labor expended, was property accumulation in some way amenable to taxation. In 1868, on the other hand, it was a charge upon the crops and, to its amount, a defence against the tax gatherer, but went into hands from which it could be collected, only on the greatly restricted consumption of the laborers.

If able to recur to this subject again, we hope to convince our Southern friends that, while we would not receive again 3 500 000 of slaves, it is impossible that negro suffrage can be maintained in this country, as an abiding institution.

CONGRESS.

NEW YORK, Feb. 10, M.

The House, last night, was engaged in considering the Revenue, and adopted the amendment giving Commissioners authority to exempt distillers of apple, peach and grape brandy from the provisions of the act in relation to spirits, at discretion, but not to reduce the tax; also placing compounders of spirits on a footing with refiners.

Congress to-day did nothing till 1 o'clock, when Senators came to the House to be present at the counting of the vote for President.

Our Midnight Dispatches.

FROM WASHINGTON.

WASHINGTON, Feb. 10, P. M.

Longstreet and Frank Blair are here.

Gen Grant has returned.

A Company of United States Infantry, from New York, passed here for Wilmington, N. C.

At 1 o'clock the Senators came to the House, arm in arm. Wade took the Chair. Colfax was seated near him. Senators Conkling and Representative Wilson, of Iowa, and Pruyn acting as tellers. Pruyn read the Democratic votes.—Conkling and Wilson alternated reading the Republican.

All went smoothly until Louisiana was reached, when Mullens, of Tennessee, objected, declaring that no valid election was held. A joint session separated.

The House voted 125 to 63, to count Louisiana.

The Senate, after a severe struggle to draw in extraneous matters, voted to count Louisiana.

The House again met and proceeded with the count until Georgia was reached, when Butler objected because the Georgia College had not voted on the proper day, and for other reasons. Much confusion ensued, which Wade ended by ordering the Senate to its own Chamber.

The House then voted 150 to 41. Georgia will not be counted.

The Senate, after the most perplexing and laughable struggle, declared that, in the face of the concurrent resolution concerning Georgia, the objection in Joint Session was out of order.

The House met in joint session in absolute conflict. Wade ordered Georgia to be read, as directed by the current resolution. Butler objected. Wade would hear no objection. Butler appealed from Wade's decision. Wade would allow no appeal and ordered the count to proceed.

Butler moved that the Senate have permission to retire. Not in order

Butler insisted that they should control their own Hall.

Amid the most intense excitement Wade ordered the count to proceed.

Conkling commenced reading the result but his voice was drowned by cries of order. The noise became deafening, when Speaker Colfax sprang to the desk proclaiming, "the Vice President must be obeyed, in joint session," and ordered the Sergeant-at-arms to arrest disorderly persons.

Colfax was ordering and appealing, probably two minutes, during which time the Sergeant-at-Arms had distributed his men all through the House, before partial order was restored, when the reading of the result and proclamation followed, and the Houses separated.

The Senate immediately adjourned.

In the House, Butler introduced a resolution that Wade's and the Senators' action was a gross invasion of the rights of the House, which resolution was pending when the House adjourned.

MARKETS.

TWO OR MORE PERSONS broke into my cellar, on Sunday night last, and stole therefrom some $300 worth of LIQUORS and other wet goods. Among the articles stolen was one FIVE gallon and two FIVE gallon kegs of Whiskey, branded "Joe Williams, Yadkin County;" and one keg containing 14 gallons of very fine old Apple Brandy.

I will give FIFTY DOLLARS reward for the apprehension of the thieves, and the recovery of the above named articles.

Some say they bought goods before the rise—some after the decline—some just in time—some in luck again—some buy goods cheaper than anybody else—some selling goods at unprecedentedly low prices—some controlling the trade &c, &c., and all such stuff! What a lucky set of individuals!

Now just let ME tell you, that there is more humbug than poetry in all this. Don't every man, woman and child know that it is humbug—large enough to be seen even with one eye shut? so let them talk, puff and blow, but STOP, LOOK OUT! HANDS OFF! and show your good judgment by
